Leetcode : https://leetcode.com/svahab33/

Address: Pune, Maharashtra

Career Objective:

Passionate about architecting high-performance, scalable, and fortified software solutions. Seeking to contribute expertise to dynamic teams and projects to bolster skills and assume pivotal roles in engineering pioneering applications.

Profile Summary:

- Skilled in debugging and enhancing software proficiency using LeetCode, with a strong grasp of business logic.
- Exceptional analytical and problem-solving abilities, with experience in unit and integration testing.
- Accomplished professional adept at leveraging LeetCode for debugging and skill enhancement, merging intricate business logic with comprehensive software system understanding.

Technical Skills:

- **Programming Languages:** Core Java, Java 8 DSA, C/C++, Python.

- **Web Technologies**: JDBC.
- **Database:** MySQL.
- **Web Development:** HTML, CSS, Bootstrap, React, JavaScript ,Material UI ,AI Tools.
- **Operating Systems:** Linux, Window.

Othe Skills :

- **Artificial Intelligence (AI):** Extensive familiarity with utilizing AI applications and tools, focusing on practical implementation rather than development. Proficient in leveraging existing AI technologies to enhance processes and solve complex problems.
- **Deep Learning Applications:** Proficient in applying pre-built deep learning models and frameworks for tasks such as image recognition, natural language understanding, and recommendation systems.
- **AI Frameworks Utilization**: Familiarity with popular AI frameworks like Chat gpt, Bard Ai, and scikit-learn for the purpose of integrating existing models and solutions into practical applications.

Project Experience:

Engaged in a Real Estate-specific project focused on UI/UX design and development for a web platform utilizing React.js technology. Leveraged Redux to augment functionality and ensure seamless user interaction

Scope of Work:

- Collaborated on the design and implementation of a user-friendly interface catering to Real Estate industry requirements.
- Employed React.js to create a dynamic and responsive website offering enhanced user experiences.
- Integrated Redux to manage and streamline data flow, optimizing the application's performance and scalability.

Achievements:

- Contributed significantly to the creation of a visually appealing and functional website catering specifically to Real Estate needs.

- Implemented Redux to facilitate efficient state management, ensuring smoother data handling and improved performance.

INTERN:

- Analyzed problems and worked with teams to develop solutions.
- Sorted and organized files, spreadsheets, and reports.
- Completed research, compiled data, updated spreadsheets, and produced timely reports.
- Developed and maintained relationships with key internal stakeholders.
- Facilitated successful completion of projects from Concept of Launch.

Certifications:

- **JavaScript** - LetsUpgrade JavaScript Zero to Hero Certificate
- **React** - GreateLearning React.js Certificate

Degree Name	Passing Year	Percentage
B.SC(ECS)	July -2025	-
H.S.C	March - 2022	70.33
S.S.C	JULY -2020	65.85
